Public Service Commission:

February 22, 2013

This letter is concerning the proposed tap fee changes submitted by the Allen County Water District. I understand these are based on regulation changes to meet lead content requirements however I feel the proposed changes in price are excessive increases to our citizens. We must stay competitive with surrounding counties in order to keep our community growing. For example Warren County is currently \$450 they may increase due to the lead regulations but doubt very seriously they will increase 140%.

Hopefully when the commission reviews this request they will look at the surrounding area and keep us in line. Common sense would tell me that the change in requirements would be the same for all therefore fees should be comparable.

Thank you for your time and hopeful consideration of my request.

Johnny Hobdy

## Notice

The Allen County Water District proposes to make the following revisions to its schedule of charges. The proposed effective date is June 1, 2013.
